DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The Examiner has fully considered the Applicant's arguments regarding Claims 1-9 and has found the arguments convincing. Particularly in regards to Claim 1, the prior art fails to teach or fairly suggest, in addition to the accompanying features of the claim, focusing of the beam in a "z-direction", which is perpendicular to both the original beam direction and the direction of the accelerated beam. This is articulated in "Remarks and Arguments", primarily in the third paragraph on pages 2-3 and was discussed in a telephonic interview. Claims 2-9 are allowable by virtue of their dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mary A. El-Shammaa whose telephone number is 703.308.0851. The examiner can normally be reached on M-F (8:30am-5:00pm).
